RESEARCH AREAS

My main expertise is development economics, natural resource and environmental economics, and applied micro-econometrics. My research focuses on the interface between economics and natural resource management issues in the context of smallholder agriculture in developing countries. These include smallholder agricultural behavior and decisions, sustainable land management, agricultural technology adoption, food security issues, behavioral economics and experiments in the context of smallholder agriculture, environmental valuation, climate change economics, and gender studies.

MENTORSHIP AND PARTINERSHIP

Student Mentorship (September 2023 through April 2024):

Mentored Sosina Gebremichael (my undergraduate student) to present her Capstone paper in an undergraduate conference organized by Easter Economic Association, and Robyn Mathias Undergraduate Conference, CAS, AU. The paper was entitled " Divine Divides and Economic Differentials: Investigating the Impact of Religious Affiliation and Participation on Gender and Wage Disparities in American Society". The paper was later selected and given Meade award as the best undergraduate research paper in the department.

Mentored Joseph Melin (my undergraduate student) to present his Capstone paper in an undergraduate conference organized by Easter Economic Association, and Robyn Mathias Undergraduate Conference, CAS, AU. The paper was entitled " The Impact of Political Freedom on Resource Depletion". The paper was later selected and given Meade award as the best undergraduate research paper in the department.

. Mentored Allyson Porter (my undergraduate student) to present her Capstone paper in an undergraduate conference organized by Easter Economic Association. The paper was entitled " Financial Inclusion for Ever-Married Women of Bangladesh".

. Mentored Tayce Shamamian (my undergraduate student) to present his Capstone paper in an undergraduate conference organized by Easter Economic Association. The paper was entitled " Subnational Determinants of FDI in the United States".

Student Mentorship (September 2019 through March 2020):

Mentored Madison Mauro (my undergraduate student) to present her Capstone paper in an undergraduate conference organized by Easter Economic Association. The paper was entitled " The Conventional and the Conceptual: Evaluating the Impact of Economic Growth on Gender Inequality and Development. The paper was later selected and awarded as the best undergraduate research paper in the department.

Mentored Katrina Breidenbach, (my undergraduate student) to present her Capstone paper in an undergraduate conference organized by Easter Economic Association. The paper was entitled " Multilevel Marketing Firms: An Examination of Participation Drivers and Financial Success".

Mentored Rylie Greene (my undergraduate student) to present and publish her Capstone paper in an undergraduate conference organized by Easter Economic Association. The paper was entitled " Women in Labor Market: The Effect of Years of Schooling on Labor Force Participation in the Service, Industrial, and Agricultural Sectors Across Countries" and later published in Issues of Political Economy (Vol 29(2), 2020, 141-164).

Other students' membership includes Capstone research by Nathaniel Edenfield (2017/18) Alaa Chaker (2016/17), Logan Billman (2016/17), Michael Bassett (2014/15), Leonardo Pedicelli (2014/15), Emily Ellis (2014/15). All of them won either best undergraduate research award of the department or the college, and published their papers in undergraduate research journal (such as Issues of Political Economy published by Eastern Economic Association or Journal of Applied Business and Economics).

Faculty Advisor, Ethiopian and Eritrean Student Organization. (March 2016 - Present)

My role as faculty advisor includes the following: Assist the organization in formulating long-range goals and in planning and initiating short-term projects; be present at

organization sponsored events when necessary; promote student awareness of, and adherence to, policies governing student organization; serve as a resource person for alternative solutions to problems confronting the organization; assist in evaluating organization projects, performance, and progress; and make suggestions that will permit the officers to improve leadership skills.

Summer Gender Workshop (May 2022-August 2022):

Organized six gender summer workshops for graduate students, and past and current global scholars on our PGAE program. These workshops provided the opportunity for our graduate students and global scholars to present their work and get feedback. These workshops were organized together with Mieke Meurs.

Summer Gender Workshop (May 2021-August 2021):

Organized six gender summer workshops for graduate students, and past and current global scholars on our PGAE program. These workshops provided the opportunity for our graduate students and global scholars to present their work and get feedback. These workshops were organized together with Mieke Meurs.

Mentoring Visiting Scholars (September 2021-today):

Mentored visiting global scholars on our PGAE program with a continuous weekly informal meeting regarding their research ideas, curriculum development, and any administrative issues. These workshops were mainly led by me and Mieke Meurs

Inclusive and Anti-Racist Curriculum Development (July 2021)

Participated in an inclusive and anti-racist curriculum development initiative (led by Mary Hansen) in the department on principles of economics course. I have recorded a video on one topic on microeconomic principles. The videos will be embedded in an online open-source textbook that will be made available as supplemental material to faculty.

Decolonizing Economics Workshop (Fall 2021):

Mieke Meurs and myself have taken the initiative to organize a one-day conference to initiate conversation on a more inclusive economic teaching and curriculum. We organized a joint committee together with graduate and undergraduate student groups to plan the workshop, and recruit speakers. The conference was conducted on November 5, 2022. The Conference started with a kick-off speaker (Dr. Rhonda Vonshay Sharpe, one of the experts on this issue President, Women's Institute for Science, Equity and Race), followed by two panel discussions by students and Economics Department faculty (on graduate and undergraduate teaching), and two parallel workshops (also focused on graduate and undergraduate teaching), with more specific discussions of selected syllabi.

D-Econ Toolkit (Guideline) (2021/22)

Based on the feedback received from the conference and we (me and Mieke Meurs) developed and shared toolkit/guideline that will make economics teaching and curriculum more inclusive. The guideline is submitted to the department chair, which will later be shared with econ faculty and conference participants.

Heterodox Economics Canvas Module (Since Spring 2022)

Inspired by the discussions and feedback from the D-Econ workshop, I have joined the heterodox economics working group trying to develop canvas modules on heterodox economics topics with the intention of making economics teaching more diverse and inclusive. I will be developing one module over summer 2022.

Course Development (December 2022-April 2023)

Revised Econ 623, and Econ 624 OL courses

Partnership with International Organization

Developed Gender Economics Course for use by African Researchers

This is an online course designed to strengthen research capacities of African Researchers and Practitioners. Two Professors from PGAE, AU contributed modules to this course. I contributed two modules for this course, i.e., Gender Intersectionality Analysis of Microdata, and Gender and Climate Action in Fragile Food System. This initiative was financed by the International Development Research Center (IDRC, Canada) and implemented by Partnership for Economic Policy (PEP, Kenya. The course was entitled

“Integrating Gender Equality and Inclusion (GEI) for Economic Research. The course is expected to go live as of September 2024.
